

Control	Control Objective	Test Procedure	Evidence Required	Evidence Received	Result	Finding	Risk	Owner	Due Date
Access Control	Ensure only authorized users have access to systems	Review sample of access logs	Access Review Form	Received	Effective	None	Low	IT Manager	N/A
MFA	Protect accounts from unauthorized access	Verify MFA status for all users	MFA Configuration Report	Received	Effective	None	Low	IT Manager	N/A
Vulnerability Management	Identify security weaknesses in systems	Review latest vulnerability scan results	Vulnerability Report	Received	Partially Effective	Critical vulnerabilities identified	High	Security Manager	2026-09-15
Patch Management	Ensure systems are up to date with security patches	Sample critical system patch compliance	Patch Compliance Report	Received	Partially Effective	Several servers out of date	High	Infrastructure Manager	2026-09-20
Logging	Detect suspicious activity	Verify logs from critical systems	SIEM Dashboard	Received	Effective	None	Low	SOC Manager	N/A
Incident Response	Ensure incidents are handled promptly	Review incident response plan	IR Plan / Exercises	Received	Effective	None	Low	Security Manager	N/A
Backup	Protect critical information	Review backup logs	Backup Test Report	Received	Partially Effective	One critical system backup failed	High	IT Manager	2026-09-30
Business Continuity	Maintain critical business functions	Review BCP and BCP Test Report	BCP Test Report	Received	Partially Effective	Recovery exercises incomplete	Medium	GRC Manager	2026-10-15
Security Awareness	Ensure employees understand security policies	Check training completion	Training Completion Report	Received	Effective	None	Low	HR Manager	N/A
Third-Party Risk	Manage supplier security risks	Review Critical Vendor Risk Assessment	Vendor Risk Assessment	Received	Partially Effective	One Critical vendor with issues	High	GRC Manager	2026-09-10
Security Policy	Maintain current security policies	Review policy register	Policy Register	Received	Effective	None	Low	GRC Manager	N/A
Privileged Access	Restrict administrative access	Review privileged access logs	Privileged Access Log	Received	Partially Effective	Two accounts lacking MFA	Medium	IT Manager	2026-09-25
Endpoint Protection	Protect endpoints from malware	Review EDR deployment	EDR Dashboard	Received	Effective	None	Low	Security Manager	N/A
Risk Management	Maintain current risk register	Review Risk Register	Risk Register	Received	Effective	None	Low	GRC Manager	N/A
Corrective Action	Ensure findings are addressed	Review open findings	CAPA Register	Received	Partially Effective	Two corrective actions pending	Medium	GRC Manager	2026-09-30
